So switching to thinner threads and more stiches per project threw me at first. The end results speak for themselves though.0 of 0 people found the following review helpful. Good Buy!By PolakSlovak GirlI love the patterns in this book, super cute! I will admit I haven't tried out any patterns (yet), but I am more than satisfied with the patterns they include. I have been looking for a basic crochet vest pattern for awhile, and there is an adorable pattern for one in this book. Patterns for sweaters, accessories, and other clothing are included. Good buy!2 of 2 people found the following review helpful. super awesomeBy Allez CrochetThe patterns are unique and attractive. Brings crochet to contemporary times and makes it hip! I feel satisfied just flipping through the book but have only completed the simpler smaller projects so far. One of these days I'm going to make a big project from this book!!
