John Sinkankas : Gemstone Mineral Data Book: A Compilation of Data, Recipes, Formulas and Instructions for the Mineralogist, Gemologist, Lapidary, Jeweler, Craftsman and Collector before purchasing it in order to gage whether or not it would be worth my time, and all praised Gemstone Mineral Data Book: A Compilation of Data, Recipes, Formulas and Instructions for the Mineralogist, Gemologist, Lapidary, Jeweler, Craftsman and Collector:

This working encyclopaedia of gemstones and minerals is the result of many years' research and field work on the part of John Sinkankas, the acknowledged dean of American gemologist. The author has derived much original information from lab-testing hundreds of materials and techniques himself. Here is a solid bedrock of working data for the lapidary and mineral field, a how-to plus reference volume that is both handy and complete:lists of the properties (physical and optical) of gemstones - the most complete in paperbackchemical agents, methods, and precautions for

cleaning over 1,400 minerals - the most extensive compilation available
