A lot like her other book (Generation T - 108 ways to transform a T-shirt) but with better projects. I make most of my two daughters clothing so I appreciate fun sewing ideas. My first sewing book was Threads for Heads (I have forgotten the author's name over the years) and was very similar in style to this book. I would love to see this author do a book of simple skirts with tons of applique ideas and tips. Applique inspiration is my current obsession, but the quilting books are kinda bland. Some stained glass patterns can be cute/crazy for appliques too. I made a lot of alterations to project #22 (babydoll dress) and they are amazingly adorable on the little ones. Hint to readers - raise the waistline higher. Thank you Megan Nicolay for putting your time and effort into these. Looking forward to more books in the coming years! ~Nikki Morrison ~0 of 0 people found the following review helpful. mhhh By MrsEvans In my opinion, this book would be best for a young teen attempting to find their creative voice. Or if you are the super artsy person. For the run of the mill every day person, the ideas presented are not ones that you would wear. I ended up gifting the books (I bought both titles for t-shirt transformation) to a friend who loves them. I guess it really depends on taste. For the run of the mill everyday person, this would not be your cup of tea! 0 of 0 people found the following review helpful.

To sew or not to sew?? Doesn't matter much with this book. By Clovermb. So many great ideas and easy to follow directions. Good for a novice or expert because there are a ton of styles to choose from. Colors and vibrant.

Megan Nicolay revolutionized the T-shirt. She repurposed it, reinterpreted it, reinvented it and created the #1 craft book in the nation, *Generation T*, which continues to dominate. Now she explores new ways to slash a tee, scrunch a tee, and sew a tee with *Generation T: Beyond Fashion*. A collection of 120 projects for every occasion, it takes the humble yet ever-malleable tee in dozens of new directions from baby gifts to pet accessories, stuff for the home, the car, the road, the boyfriend. The rallying cry is: Don't buy; DIY. The result is hip, imaginative, crafty, and very green. There's a basic primer on techniques: knotting, sewing, braiding, lacing plus a full tutorial on embellishing. And then an amazing range of projects. There's fashion, of course: all-new halters and tank tops, sexy gaucho pants, a baby-doll dress, twisted shrug, and hooded scarf. But also baby gifts: Jumper for Joy, Baby Back Bib, Wild Thing Blankie. Home decor: plant hanger, wine cozy, toilet seat cover, ruffled apron, and Spastic Plastic (grocery tote). Grill mitts and bolo ties for the guys, doggie tee and stuffed cat toys, a steering wheel cover for the car, the Ants Go Marching (picnic blanket), and Beach Bum (beach caddy). Projects range from the simplest no-sew to intermediate, and all have easy-to-follow illustrated directions plus, how to throw your own Tee Party. Time to get your craft on.
