I am sad that Barnes and Nobles doesn't carry this anymore so I have to order online which is more expensive but it's worth it. These patterns and different colors are awesome. The only thing is that most of these books don't offer perfect squares, so be ready to cut of edges off. I know it's extra work, but sometimes it's worth it. I have been doing origami for 10 years and these are always my go to books, my friends always love the colors in my origami pieces. I recommend it!0 of 0 people found the following review helpful. Good value on Origami paperBy artgeek8Nice, bold, and colorful graphics. Fast delivery2 of 2 people found the following review helpful. One StarBy Callie SpenceThe paper is not a square but instead a rectangle with one side that's 3 cm longer.

This handy origami practice pad includes basic origami folding techniques and instructions to make a paper 'masu box', as well as 400 sheets of beautiful origami paper in 32 fun geometric designs. Make all your favourite origami

models today!
