**Nick Robinson : Geometric Origami Kit (Idiot's Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Geometric Origami Kit (Idiot's Guides):

0 of 0 people found the following review helpful. Origami paper is suppose to be square right?By SFORThis is a book for novices in origami, therefore it makes complete sense to include rectangular paper, they won't know the difference. Well not until they go to make their first design and find it impossible. In other words, buy something else.Product is being returned.0 of 1 people found the following review helpful. Five StarsBy Georgette JenkinsGreat book.

Includes 80 sheets of Origami paper! Idiot's Guides: Geometric Origami Kit makes learning this art easy and fun. For the young or young-at-heart, this full-color book offers 20 beautiful geometric Origami projects and 80 sheets of Origami paper to construct them. In addition, lay-flat spiral binding makes the detailed steps even easier to follow.
