Ready to be healedBy Mary SaylerAs a lifelong lover of God and the Bible and a long-time student of medicinal and culinary herbs, I liked the idea of combining these major interests. The book's A to Z format makes it easy to find concise information on the history, gardening, and use of each herb, but I especially like the Tables of Medicinal Herbs in the back of the book where I can look up an ailment and find the herbs that can be used, internally or externally, to treat each concern.2 of 2 people found the following review helpful.

Finally! By Becky D. God's Healing Herbs is straight-talking, easy-to-understand, information about the amazing plants that God has created for us to have dominion over - dominion meaning 'responsible for', not 'domination, hence the freedom to abuse and destroy'. Thank you, thank you, thank you, Dennis, for giving credit where credit is due! So many want to attribute "power" to the gift, rather than the GIVER, but you say it boldly and clearly - GOD's Healing Herbs. He is the ONE who gives us the understanding and ability to use the gifts that He's given us and this book compiles the information accurately and concisely. The Scripture garden references are a GREAT tool - love the Bible walk study section! 0 of 0 people found the following review helpful. Five Stars By Paula S Nolte Really enjoy this book. It has minimal info though.

An excellent Christian resource on herbs. Beautifully-illustrated pages give tips on how to grow, use, and benefit from 130 herbs. Spiritual lessons from herbs mentioned in the Bible help the reader discover living parables of the natural world in relationship to God's spiritual world. For example, the herb Hyssop has internal and external cleansing value, and it is mentioned in the Bible in relationship to the cleansing of sins. Recipes, culinary and medicinal charts, and a devotional section titled "Jesus and the Herbs" make this book a uniquely inspiring experience and resource.

"Favorite recipes from herb growers across the country plus culinary and medicinal herb charts are complimented by beautifully done illustrations." --The Essential Herbal Magazine, Nov/Dec 2004 "If you are a gardener of faith, you will find something in this book to inspire you spiritually and horticulturally." --PRACTICAL GARDENER, Jan/Feb 2005 About the Author A Christian pastor and writer, Ellingson served many years as an officer in the Salvation Army. He now pastors a country church in the forested hills of southwest Oregon, where he grows lots of herbs. He has written on many subjects. God's Healing Herbs is the result of his extensive study and use of herbs, and his belief that God has created all things for our good, either to benefit our physical lives or to teach us of spiritual things.
