The pricing is old and outdated. The prices have come way down from the ones listed in this book. All Goebel/Hummel prices have come down over the last ten years. Great

for buyers but not for sellers. 1 of 1 people found the following review helpful. Great collector's guide! By J. D. Waugh I have marked up this book and made notes on each of the ones that I own. I also called the author who was very responsive. Any Redhead collector should have this book. I learned so much about not only individual figurines but about how they are made, names of sculptors, known color variations and much more. 1 of 1 people found the following review helpful. Great book By Emerald Girl I collected the Red Head figurines by Charlotte Byj years ago. This book is very informative. It gives history on the piece, The approximate worth and other general info. It also gives info on Charlotte Byj. It was great to see all the pieces she created.

Charlot Byj created her famous redheaded children and other figures as greeting card illustrations. In the mid 1940s her work caught the attention of the Goebel Company, the makers of Hummel figurines. At Goebel her characters took on three dimensions, and now they are sought by collectors around the world. The Redheads, the blonde series, and other Byj creations for Goebel are presented here, making this a comprehensive volume. Nearly every figure is shown in a beautiful color photograph. Current values are given with each photograph, and there is a history of values on the secondary market, beginning with 1957. A wealth of information is given to make this a truly valuable book for collectors of these delightful figures.

About the Author Rocky Rockholt is the foremost authority on Charlot Byj figures. He and his redheaded wife, Marilyn, have collected them for many years. They reside in Minnesota.
