**From Fox Chapel,2009 : Great Book of Wooden Toys More Than 50 Easy To Build Projects by Marshall, Norman [Fox Chapel Publishing,2009] (Paperback)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Great Book of Wooden Toys More Than 50 Easy To Build Projects by Marshall, Norman [Fox Chapel Publishing,2009] (Paperback):

0 of 0 people found the following review helpful. it came out really nice! Shipping was fastBy Mary A NadeauWe bought for our son for Christmas and he did make an airplane for his son, it came out really nice! Shipping was fast!6 of 6 people found the following review helpful. Good projects, POOR plansBy R. BoydWhile I like the projects in this book, the plans leave a LOT to be desired. I muddled through the biplane only because I have some decent math skills and a woodworking background. The written plans themselves left out some important detail and the measurements were, for some pieces, non existent. Keep in mind, I have only built the biplane so I am only speaking about that plan. Like I said, if you have the math skills to determine your own scale and an eye to GUESS at some of the measurements, then it is a fun project. I rarely use plans for things I build, so this wasn't new to me, but when I buy a book with plans, I expect them to be fairly accurate and complete. This was not.0 of 0 people found the following review helpful. Five StarsBy ltpspgreat book. I'm making toys and having a blast
