**Peter H. Riddle : Greenberg's Guide to Lionel Trains 1901-1942, Vol. III: Accessories** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Greenberg's Guide to Lionel Trains 1901-1942, Vol. III: Accessories:

0 of 0 people found the following review helpful. Quite an informative book on the early accessories made by ...By Customer  
Quite an informative book on the early accessories made by Lionel. Cleared up several questions I had, but created many more due to the insights and collections of the author and photographer.  
0 of 0 people found the following review helpful. Prime Research Guide on Prewar Lionel Accessories  
By 22TWINSThis guide is logically organized and the information is augmented by excellent color photographs. The item descriptions are not only accurate, but are clearly written. It is immediately obvious to the user that this is a reference guide that will be used again and again. Because of repeated use, this hardbound edition, though more expensive than its softbound brother, will give great service for years to come. Happy railroading.  
0 of 0 people found the following review helpful. Great pictures. Really loved it  
By HTEKcellent and informative. Great pictures. Really loved it.

Surveys Lionel's prewar accessory production with values listings, photographs, and product descriptions. The most complete record available of Lionel's innovative accessory line.
