Paul Gailey, Walter Check : Greenberg's Guide to Marx Instruction Sheets before purchasing it in order to gage whether or not it would be worth my time, and all praised Greenberg's Guide to Marx Instruction Sheets:

4 of 4 people found the following review helpful. A invaluable source for Marx Instruction SheetsBy A CustomerEach Marx/Allstate/Montgomery Ward/Grants/Western Auto/Walgreens train set made by the Louis Marx company came with a number of instruction sheets. At the least, there was the basic sheet showing how to connect the transformer to the track and how to put the track together. It included a synopsis of how to lubricate the locomotive.If your set had any type of accessories, these were covered by additional "IS-#" sheets (where # is the sheet #). A deluxe set sold at any of the listed stores might have a instruction sheet for the track/engine/transformer, plus the sheet for each accessory.If you need replacement IS sheets, this is the book for you!RJ-Casares@worldnet.att.net0 of 0 people found the following review helpful. Five StarsBy William W.nice book

About this Book: This extraordinary book, a big brick at 688 pp, reproduces over 300 Marx instruction sheets. The book is over 90% trains with about 50 pages devoted to Marx Playsets (Galaxy Command Base, Fort Dearborn, Rhine River, etc.) No Best of the West. The Quick Reference Index (65 pp) allows you to locate the correct instruction sheet for your Marx product and, quite helpful, allows you to identify trains/toys sold with a particular instruction sheet. The quality of reproduction is quite good and the format is large. Book details: pictorial cloth over hardback boards with a sewn binding; released without dustjacket; bw. Table of Contents: Unnumbered Instruction Sheets, Numbered Instruction Sheets, Playset Instruction Sheets, Construction Pamphlets, Engineering Instruction Sheets, Order Forms,

Quick Reference Index. Blurb: "Find those long-lost instruction sheets for your Marx trains and toys! Learn how to... Assemble, operate, and care for Marx trains, accessories, Playsets, and other toys. Connect, maintain, and repair motors and electrical components. Plan and run Marx train layouts."
