1 of 1 people found the following review helpful. Excellent BookBy MarijeI am a Master Gardener and help out in our Herb Garden. I bought this book and a couple of others by Thomas DeBaggio. His book is detailed and very helpful in the propagation of herbs in our garden. I highly recommend this book for anyone interested in propagating and growing herbs.0 of 0 people found the following review helpful. Love his bookBy justmeMr. DeBaggio is a master. Love his book.0 of 0 people found the following review helpful. How to grow herbsBy Gary D. FossInstructions are clear and to the point. Lots of useful information in a small package. It helps to increase the

number of herbs I have from cuttings.

This book shatters common myths, advances new techniques (and some time honoured ones as well), and clarifies the basics for creating healthy, vigorous plant starts for the herb garden.

About the Author DeBaggio has written extensively for leading gardening and herb magazines, he is also the author of 'Growing Herbs from Seed, Cutting and Root: An adventure in Small Miracles', and, with Susan Belsinger, 'The Basil Book: A Herb Lovers Guide'. Both books are published by Interweave Press.
