Kimberly Sciaraffa Berlin : Handcraft Wire Jewelry: ChainsClaspsPendants before purchasing it in order to gage whether or not it would be worth my time, and all praised Handcraft Wire Jewelry: ChainsClaspsPendants:

11 of 11 people found the following review helpful. Great Book!By James VornovAnother winner from Kimberly Berlin. Tons of ideas in here. Each project has variations and you could see each idea as a leaping-off point for more ideas. This book is great for beginners and intermediate wire/Jewelers-if you are an advanced wire weaver or Jewelry designer, you may have done all this already, but the chains and drilled pendants are very creative and inspiring.9 of 9 people found the following review helpful. Great ideas, clear instructions, and lots of additional suggestions - great resourceBy Marion SternsteinThis has become my 'go to' book for chains and pendants - either wrapping Cabachons or beads with holes. The instructions are clear, accurate, and easy to follow. And every project includes multiple other ideas and variations sparking my creativity. I find myself pulling out this book whether I have a pendant and I need to make a chain to go with it, or if I have a beautiful Cabachons or glass piece or a special bead and I want to make a

necklace with this as my focal piece.5 of 5 people found the following review helpful. This is a very good book. Lots of interesting designs for working with ...By Vee TeeThis is a very good book. Lots of interesting designs for working with wire. Kimberly Sciaraffa Berlin used a bail making plier for many of the designs. Until reading her book I had no idea how useful the pliers would be. It makes it so much easier to make the designs using these kind of pliers. I highly recommend this book.

The latest book from Kimberly Sciaraffa Berlin teaches jewelry makers how to make 22 wirework pieces from start to finish. Jewelry makers are treated to Kimberlys freeform style of wirework as she wraps and weaves around beads and cabochons to make showcase pendants. She then explains how to make many styles of chains and clasps, so every part of the piece can be handmade. After mastering the component techniques, jewelry makers will find the resulting components are completely interchangeable for thousands of looks!

About the AuthorKimberly Sciaraffa Berlin is a full-time jewelry artist, she teaches wireworking classes in San Antonio, Texas, and is the author of Build Your Own Wire Pendants. Kimberly lives in San Antonio, TX.
