Beautiful pictures of both finished projects and work in progress. Many projects with easy instructions and templates to get you going working with clay to create pretty pieces. This book is for people who already have experience and knowledge of clays, glazes, kilns and

firing as they are not covered in this book. I am in love with this book and would recommend it. 10 of 10 people found the following review helpful. Buy this book

Love this book, beautiful photography and fantastic projects . Simple projects that don't need a bag of tools, just basic things we have around the house. I have made hand built ceramics for some years and enjoyed the new shabby chic style. Overall a practical and very pretty book to look through.

If you want to make pottery at home find a place ..maybe garage.. where you can keep tools clay etc. It is not a kitchen hobby,..alot of clay dust etc. Clay water cannot be poured down the sink as it will clog pipes. I suggest take this book and go take a class.

Have you always wanted to know how to make pottery but been daunted by the techniques or put off by expensive equipment? This book includes everything you need to know to make beautiful pottery by hand in your own home. Learn to create pots, plates, bowls, mugs, candle holders, trays, jugs and much more - all without a potter's wheel. Packed with tips, techniques and inspiration, you'll be inspired by the beautiful photography and practical projects. Every design is accompanied by clear step-by-step illustrated instructions so professional results are easy to achieve. And when you've finished making your piece, you don't even need your own kiln - simply pop along to one of the numerous pottery cafes to fire it!
