It not only gives stitch instructions, but also patterns for very unusual scenes. It lends itself for the creative stitcher who has already mastered the basics. Dorman Helen Stevens' books are always enlightening. I use them mainly for the inspiration. Her landscapes do inspire. The butterflies and animals with their surroundings stretch my imagination and will help anyone with their stitching and escape of the coming winter. As with her other master classes there are 4 wonderful pieces to stitch.

The sixth title in the popular Masterclass Embroidery series from internationally acclaimed textile artist Helen M. Stevens. Helen explores a range of beautiful landscape views, from lush, green rolling countryside to far-flung mountains reflected in the shimmering sea, using pure silk embroidery threads to achieve astonishingly realistic

effects. Each of the five chapters builds toward an in-depth masterclass project including templates and close-up detailed colour templates of landscape focus points, as well as colour keys and step-by-step stitching instructions. Easy to follow colour photographs illustrate the working stages of each masterclass embroidery, ensuring that perfect results can be achieved when recreating the picturesque designs alive with perspective and drama.
