It has a lot of information for beginning gardeners about how to set up a well planned out and functional garden but she also has a lot of information about herbs grouped into some great listsHerbs for a:- Cottage Garden (separated into short, medium and tall plants)- Colonial garden (separated into culinary, tea, brewing, medicinal, household, dyeing)- Classic herbs- Container HerbsTop 10 Lists- 10 favorites (actually 2 of these meaning its top 20 best herbs)- Medicinal herbs- Herbs for crafts- Herbs you thought were weeds- herbs that self-sowShe also goes into how to make compost, how to plant the garden, how to harvest dry herbs, how to press herbs, mulching,

common problems. I really like that this book has a lot of great information and isn't just photos of plants with small bits of text to describe the photos. This is a great selection for any new gardener interested in herbs. I was just looking for general gardening info and am now excitedly planning an herb garden!

A comprehensive guide to starting an herb garden, written for beginners. The consummate beginner's guide for anyone interested in starting an herb garden. It will explain, in simple terms, everything you need to know about choosing the site, preparing the soil, choosing the plants, caring for them, dealing with pests and diseases, and what to do with the harvest at the end of the summer. Included will be actual easy-to-follow garden plans, lots of helpful tips, expert advice, and useful figures.
