An Herb Book For All Seasons!By A CustomerIf you want just one book devoted to herbs, this is the one for you. Not only does Adelma describe the various herbs in her 50 gardens at Caprilands (it used to be a goat farm in the 1920's when she and her husband moved there), she tells some great stories related to the plants.Adelma's lunches and lectures at Caprilands were legendary. This lady deserves more press. I have never met anyone like her. I had the opportunity to spend a few days with her about 20 years ago. I was amazed at how much she knew about herbs and life in general. I will bet that if you read this book, you will want to order all of Adelma's many books. They are all great reads.
