Jessie Wail : Herbal Antibiotics: The Complete Beginner's Guide With 33 Amazing Homegrown Herbs And Herbal Blends To Cure, Prevent Infections, Treat Colds Keep You Healthy! before purchasing it in order to gage whether or not it would be worth my time, and all praised Herbal Antibiotics: The Complete Beginner's Guide With 33

Amazing Homegrown Herbs And Herbal Blends To Cure, Prevent Infections, Treat Colds Keep You Healthy!:

0 of 0 people found the following review helpful. Great content, but not pretty to look atBy SanjinI like using herbal remedies from time to time, some of them can be really useful. I wouldn't go that far to say that we don't need regular antibiotics, but with guides like this one you can safely try out some stuff.The book is good, it has lots of helpful information, but the presentation is not so good. Everything is crammed together, no pictures, it is hard to find what you are looking for. It could be a lot more pleasing to read with some editing.However, the content is very good, some of the natural remedies work great for me (beet root, for example) and it is worth a try.0 of 0 people found the following review helpful. and are brilliant in dealing with the side effects of synthetic antibiotics ...By ArabellaThe thought that they work to help eliminate dangerous germs, boost the body's natural defenses, and are brilliant in dealing with the side effects of synthetic antibiotics has completely sold me to the idea of using them in greater frequency for dealing with ailments or diseases in the future. It has been a life changer for me. I never really knew that these natural remedies were out there and this book really takes you step by step and educates you on each of the herbs you can use and how they can treat any ailment you could come across0 of 0 people found the following review helpful. Very useful guideBy Lidia DWe all know that there is no best alternative for herbal medicines. I have tendency to go for herbal medicines than to go for all medicines. But generally it is not so possible because we don't get a knowledge how to live a herbal life. Thanks to the author now i have the idea i need to live a herbal life. the author has given all the information that you need to know. I really appreciate the effort of the author to write such a great book. Worth reading and purchasing. Thanks for sharing!
