Gerda Bengtsson : Herbs and Medicinal Plants in Cross-stitch before purchasing it in order to gage whether or not it would be worth my time, and all praised Herbs and Medicinal Plants in Cross-stitch:

Bengtsson is the bestBy Susan Be...Gerda Bengtsson and the Danish Flower Guild generally are the best designers of cross stitch for Danish flower thread. These charts are clear, easy to read, and make up beautifully into softly colored and realistic renderings of the plants they depict. I've had all of her books for years and have made up probably six to ten of the designs to give away as gifts. They're all framed and proudly displayed and I've received raves on all of them for which I can only take partial credit as the designs are simply gorgeous. If you're going to invest the time to do a significant hand work project it's worth it to work from a design that's beautiful; most contemporary cross stitch patterns are crap.0 of 0 people found the following review helpful.
