**Noel Riley : History of Decorative Tiles** before purchasing it in order to gage whether or not it would be worth my time, and all praised History of Decorative Tiles:

1 of 1 people found the following review helpful. Five StarsBy alessia ferraresiGreat book!!!!9 of 9 people found the following review helpful. PleasurableBy salieroThis book is an excellent overview of the history of tile art. I am particularly interested in Islamic tile art, and the chapter in here is informative and contains excellent illustrations. In fact, the whole book is laden with beautiful illustrations.Also delightful is a 17th century Dutch tile panel depicting the workings of a tile factory.For anyone interested in this art form, I can recommend this as an excellent introduction.

A chronological survey of decorative tiles from Islamic, Byzantine, and Medieval through the 20th century. Profusely illustrated in color.
