Crochet joins forces with the hot craft of beading in this stylish collection of original projects. By combining fiber, beads, and other attractive materials, todays crafter can make truly spectacular, professional-looking jewelry: an Art Nouveau necklace and earring ensemble of iridescent seed beads with the look of Tiffany glass; strands of earth-toned beads with matching chunky tubular crochet bracelet; a trio of layered necklaces and pendant of faux jade to cast a mysterious Asian spell; and more than 20 other stunning ensembles.

"Crochet seems like an unlikely jewelry technique, but it works beautifully for making cords and joining beads. Harste...uses standard crochet thread and specialty yarns to construct very elegant jewelry pieces with pearls, beads, and gold and silver findings.' -- Library Journal
