Mr. Paul Alan Neher : Hounds of War before purchasing it in order to gage whether or not it would be worth my time, and all praised Hounds of War:

Hounds of War standardized skirmishing system allows the players (with maximum flexibility during the CREATION phase) to be able to take ANY 25-30mm figures, assign them the game values the players WANT, and be able to bring them into play. This is a stand-alone set of rules, so no other rules are necessary for play. In addition, you WILL need your own miniatures, a LOT of 10-sided dice (d10), marking chits, 3D terrain, rulers marked in inches, and your imagination to play this game.

About the Author Paul Neher and Andreas Allcock have been playing wargames a combined 45+ years, and have been collaborating with the Hounds of War system since 2008. With too many mniatures from too many now defunct

gaming systems, HoW provides an opportunity to re-use the old soldiers . Andreas and Paul are from North East Indiana.
