Ian Thomas : How to Grow Herbs (Culpeper guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Grow Herbs (Culpeper guides):

0 of 0 people found the following review helpful. Lots of books of herbs, but not on how to Grow them !By Cindi HeinI have a huge shelf on herbals... but not a single book on how to grow them ! I looked for hours on a good book on how to grow herbs correctly and could not find one, but this one... and I when I got it and looked thru it, I found it was going to be a big help for my "normals." Now my exotics usually come with great instructions from where I purchase them, but it is nice to have a handy book to grab just when you are a little stumped as to if you are doing the right thing.
