to much detail. Well written and helpful if you have never seen a hydro setup before, but just an intro book not a actual book to grow by. 0 of 0 people found the following review helpful. It was informative but more like an outline verses a detailed guide that gets specific. By Customer I read it in an hour. It was informative but more like an outline verses a detailed guide that gets specific. The illustrations are very poor quality like it was photocopied. The title claims to be a complete guide to growing the most potent cannabis.... I disagree. It's a very quick over view of the different styles of hydroponics. It For the price I wouldn't suggest buying it. I could get more info from googling for free. It's worth \$5. Not \$14 There are way better books for under \$100 of 0 people found the following review helpful. Amazing Book By Pauliane MSI had the opportunity to try hydroponic last year. It was amazing! Seeing this book it reminded me of that wonderful experience so I took a chance and bough it. I found the book to be clear, precise and easy to understand. One surprising element was when I found out a friend already bought this very book and tried one of the growing methods and saw success. Overall a very good guide for anyone interested in growing their own good stuff.

How to Grow Hydroponic Marijuana at Home A complete Guide to Growing Most Potent Cannabis Ever! I have been obsessed with Hydroponic Cannabis since I first came across them 7 years ago. I immediately knew this is the KING of all Cannabis by far. Since then I have tried and tested various ways to grow them. Not each try ended in success, but when I did, I realized how easy it is to do grow them only IF one knows the tricks and tips. Here in this book I share my proven methods for you to try. Hydroponics is the term which means water working. The practice of growing marijuana with hydroponics is just like the growing of plants in highly oxygenated water or in nutrient enriched liquid. There are many types of hydroponic approaches that are much suitable for indoor growing of marijuana. Hydroponics has the ability to grow crops much higher than the traditional yields. It makes the growth of yields in those areas where the soil cannot support crops to grow. The growth rate of marijuana becomes double when hydroponics method is used. The plants of marijuana will grow much healthier and faster in the hydroponic system as compared to the traditional soil base growth of plants.
