G. W. Carver : How to Grow Marijuana Indoors for Medicinal Use before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Grow Marijuana Indoors for Medicinal Use:

4 of 7 people found the following review helpful. Just Dandy!By sucksI found that this book does a better job explaining how to grow than most books, but i still found that i had some questions at the end. Some parts can be quite confusing, but overall it gave pretty clear instructions. This is a good reference book, but don't depend only on this book if you plan on growing. And make sure that you grow ONLY for medicinal purposes :)1 of 4 people found the

following review helpful. Very simpleBy Reading makes me sleepyThis book is small and simple, not much detail which makes it great for the beginner. The price is a little high though for what you get, therefore I had to give it only 3 stars.
