7 of 8 people found the following review helpful. Informative!By Nancy FischerThis book is unlike any other

marijuana books on the market. It's one of the first marijuana grow books I bought and definitely one of the few ones I actually still flip through occasionally. It contains detailed information on how to diagnose and fix just about any problem you may face while growing indoor marijuana. This book has everything you need to know, including why you're experiencing your problem, how to prevent it in the future, and all the different ways you can go about fixing it. 2 of 2 people found the following review helpful. Good explanation as to the "why's" of growing. By Christylarge type, easy to read with good explanations as to the "why's" of growing. .1 of 1 people found the following review helpful. Growing the weed up! By diezelish This book is very informative! Very scientific. U can tell the writer is well experienced. It's many marijuana grow books out there to choose from and I'm glad I chose this one!
