**Dan Gill : Month-By-Month Gardening in Louisiana** before purchasing it in order to gage whether or not it would be worth my time, and all praised Month-By-Month Gardening in Louisiana:

1 of 1 people found the following review helpful. month by month gardening in louisianaBy JADEDLADYdan gill has hit the mark once more. he is my go-to person if i confront something i can not figure out and he always comes thru.any book written by dan gill is worth every penny you pay for it. book is informative for month-by-month louisiana gardeners.it is wonderful and i am seriously thinking of giving a couple for christmas gifts. you can not go wrong with dan gill advise!buy this book if you have any doubts, they will soon be gone!11 of 12 people found the following review helpful. Good Book with Fast Shipping!By E. A. LubellIt's important that you realize when you buy

this book that you will not be getting detailed plant information. However, what this book is ideal for is finding out WHEN to plant in your garden. Someone else mentioned that there was no information about Creole tomatoes, but what some people don't realize is that any tomato grown in Southern Louisiana soil is "Creole". Some people do sell a tomato called "Creole" however these are merely tomato seeds from tomatoes grown in Creole soil. What I was EXTREMELY surprised by (in the Trees section of the book) was no mention whatsoever of citrus trees. No satsumas. No navel oranges. Nothing. Now, if someone corrects me, I'm more than happy to accept it, but I can't find any information in the book. I bought this book for the Vegetables and Herbs section, but there are many other pages that provide a wealth of information on annuals, perennials, trees, shrubs...even water plants. As far as the seller goes, the shipping was much faster than I anticipated. Overall, I'm very pleased with my purchase. 0 of 0 people found the following review helpful. Five Stars By thropos Got some good information from it.

Never garden alone! The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most.

About the Author Dan Gill (Baton Rouge, LA) is an extension horticulturist with the Louisiana State University Agricultural Center. He teaches lectures and demonstrations and writes articles on gardening. He has bachelor and master degrees in horticulture from Louisiana State University.
