The author, Elizabeth Morgan, is an awesome woman who is never too busy to explain things to you. I called her to ask questions before I purchased "The Golden Ruler" and she spent so much time with me explaining anything and everything I could have asked. I can't wait to see what she creates and/or writes in the future. This is truly a wonderful purchase, the book is easy to read, plenty of visuals to guide you...along with expert advice to create the most beautiful church linens!0 of 0 people found the following review helpful. An old craft for our churchesBy dutchqmommaThe book arrived in a timely fashion (THANK YOU AMAZON!). Elizabeth is wonderful! She speaks from years of experience. Many of the other resources for making

Church linens out there are 50+ years old. The linen those women and men used was different from the linen we have now, made on new machines. Elizabeth knows this and has a clientele of people across the country that she works with to perfect the art of making altar linens. She carries fine linen as well as thread and has information on the white embroidery for the linen. She also has a fine booklet and tool called THE GOLDEN RULER that is available on her website. The ultimate Episcopal authority on linensBy WaggsElizabeth Morgan has a wealth of knowledge pertaining to linens used in the celebration of the Episcopal services and she generously shares it with her readers. I bought a copy of her book several years ago to help me in cutting usable pieces out of an old holey (and no, I really mean full of holes, not blessed) fair linen. The various dimensions were clear and the directions for a convent hem and suggestions for embroidered crosses were invaluable. In addition, her gentle, witty and authoritative guidance lead me to make as many small linens as possible from the thin, fine, silky fabric. It wasn't a total waste of time, but Ms. Morgan advises that one should start with new linen rather than trying to salvage the old; the pieces I labored on didn't last more than a year or two of use. When it came time to replace them, I this time purchased new fabric and enlisted members of the altar guild to help. There were so many questions from the ladies, so eager to help with the hemming, that I decided to gift the guild with a copy of the book. That is why I have purchased this copy. It's the new linen makers' bible for everyone Episcopal.

This classic book on sewing linens for the church explains the materials and equipment needed, a variety of hemming options, special instructions on the small linens such as purificators and palls, working with fair linens, white work embroidery, and caring for church linens. New to this edition are directions for rolled hems, chalice veils, more specific directions and an improved worksheet for planning shrinkage, special advice specifically for beginners, an updated Sources and Resources section, and new patterns.
