The artwork is terrific and the subjects are so cute on every page, there will be no skipped pages by the time I'm done! With a lot of coloring books, sometimes the intense detail work gets a bit overwhelming, so it's nice to take a break from that and just color for fun. The pages are of good stock, although if you use gel pens, it may be "iffy" if you'll get bleed through. Personally, I don't use gel pens, because I don't feel there's much "art" in using them (no shading or blending), but these pages are of such good quality, you may be able to get by without using a page separator between pages, should you use gel pens.2 of 2 people found the following review helpful.
